GLASGOW:

PRINTED BY WILLIAM COLLINS & CO. IN MONTROSE STREET.
FOR THE EDITOR OF THE DIRECTORY.

PREFACE.

It is with feelings of no ordinary satisfaction that the Proprietors of the GLASGOW POST-OFFICE DIRECTORY, usher into existence their Twenty-first Annual Publication, which to the Trader, the Merchant, and the Public generally, has now become an indispensable Work of reference and information. The Proprietors refer with considerable pride to the splendid Map of the City and Suburbs, which for the first time adorns their Work, and it is hoped, upon minute examination, will be found correct, and which they feel satisfied will be appreciated by the Public. It is possible that some omissions may be detected, and should any such exist, the Proprietors will not fail to have such supplied in next year's Publication. The Public will not fail to perceive that the external appearance of the Work, is this year greatly improved, and although great expence has necessarily been incurred, the Proprietors, in answer to a previous announcement, have received such an assurance of increased support and patronage as fully meets their most sanguine expectations, and that without resorting to what they deem a disagreeable necessity, viz., raising the price of the Work, for which support they take this opportunity of tendering their warmest thanks. While the external, and what may be considered the subordinate parts of the Publication are improved, the internal arrangements will be found so complete in every part, as to warrant the Proprietors in inviting comparison with any similar Work in the Kingdom; the Proprietors, however, will feel it their duty as well as their interest, still further to make such improvements as time and circumstances may require; confidently relying on the patronage and support which in past years has so liberally rewarded their exertions.

ALMANACK AND TIDE TABLE.

JULY, 1848, TILL JULY, 1849.

ON the subject of the Tides, we may remark that they are effected by the unequal attraction of the sun and moon, but chiefly that of the latter object. The times of high water do not always answer to the same distance of the moon from the meridian at the same places, but are variously affected by the action of the sun, which brings them on sooner when the moon is in her first and third quarters, and keeps them back later when she is in her second and fourth; because, in the former case, the tides, raised by the sun alone, would be earlier than that raised by the moon, and in the latter case, later. When the moon is in perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most; the contrary happens when she is in apogee, or at her greatest distance from earth, because of her weaker attraction. At new moon, when the moon is in conjunction with the sun, the tides are raised by the joint attraction of both luminaries, and therefore will be highest; the same is the case at full moon, when the sun and moon are in opposition; for whilst the moon raises the tides under and opposite to her, the sun, acting in the same line, raises the tides under and opposite to him, whence their conjoint effect is the same as at the change, and in both cases occasion what are called Spring Tides. But at the quarters, the sun raises the tides when the moon depresses them, and depresses them when they would be raised by the moon; hence it is the difference of their actions that produces the tides at the quarters, and these are called Neap Tides. But these tides do not happen till a day or two after the above times; because in this, as in other cases, the effect is not greatest or least when the immediate influence of the cause is greatest or least, but sometime afterward.

The sun being nearer the earth at the beginning than at any other time of the year, his attraction will then be most powerful, and of course, about January, the Spring tides will be greater than at any other time, and greatest of all if the moon at the same time happen to be in perigee.

When the moon is in the equinoctial, the tides are equally high in both parts of the lunar day; but as the moon declines from the equinoctial towards either pole, the tides are alternately higher and lower at places having north or south latitudes. Whilst the moon has north declination, the greatest tides in northern hemisphere are when she is above the horizon, and the reverse when her declination is south. The time and elevation of high water at Glasgow, are considerably affected by high winds in the Clyde. From the form and course of the Frith, it will be easily seen that a gale from the N.N.W. or N.W., by opposing the flow of the tide, will cause the time of

high water to be earlier, and height of the tide to be less, than it otherwise would be; while a gale from the S.S.E. or S.E. would have an effect quite the contrary, so as sometimes to make the tide vary considerably from the time noted in the table.

The time of high water at any of the following places may be found by applying the correction opposite the name to the time of high water at Glasgow. Should the time to be subtracted be too great, add 12 to the time of high water at Glasgow, and then subtract; the remainder will be the time of high water required in the preceding forenoon, if the afternoon tide at Glasgow is used; but if the forenoon tide is used, the remainder will be time of high water at the given place in the preceeding afternoon. If, after addition, the sum exceed 12 hours, reject 12, and the remainder is the time of high water in the afternoon, if the preceeding forenoon tide has been used; but if the afternoon tide has been used, the remainder is the time of high water in the forenoon of next day.

POSTAGE STAMPS.

Stamps may be procured at the General Office, Glassford Street, the Stamp Office, and the several Receiving-Houses.

The Penny Labels, at 1d. each.

The Twopenny Labels, at 2d. each.

The Penny Envelopes, 24 for 2s. 3d., or 2 for 2½d.

The Twopenny Envelopes, 12 for 2s. 2d., or 3 for 6½d.

Stamped Half-sheets of Paper, 1½d. each, or 24 for 2s. 3d.

When the Value of Stamps on the Letter is less than the amount of the Postage to which it is liable, the Letter will be charged double the Amount of such difference on delivery.

Stamps may be used for *Printed Votes and Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, &c., *outwards*. If any Letter, however, addressed to places beyond sea, bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom *from the Colonies or Foreign Countries*.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water—to shake off the water immediately—and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly than when it is glossy.* The purpose of wetting the label *wholly* is to counteract the tendency it has to curl up from the letter, when one side only is wetted—a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, One Penny—*One Ounce*, Two-pence—*Two Ounces*, Fourpence—*Three Ounces*, Sixpence, and so on, *two rates* being added for *every ounce*. Inland Letters or packets put *unpaid* into the letter boxes, are charged double the prepaid rates of postage. Letters *insufficiently* paid, either in money or by stamps, are charged with *double the amount of the difference between the money paid or the stamps affixed and the prepaid rates*.

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post may not exceed *Four Ounces*. All above that weight must be *prepaid*, either in money or by stamps. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double the prepaid rates of postage*; if *insufficiently paid*, either in money or by affixed stamps, it will be charged with *double the amount of the difference between the money paid or the stamps affixed, and the prepaid rates, and thus charged*, “shall and may be detained and opened, and, at the option of the Postmaster-General, shall be either returned or given up to the sender thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination.”—*Treasury Warrant*, 22nd October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained and opened*, or forwarded at the option of the *Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph as

applicable to unpaid letters exceeding four ounces weight, and *thus charged*, be either *detained and opened*, and returned to the *sender*, or forwarded at the *option of the Postmaster-General*. The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty; 2. Petitions to either Houses of Parliament, forwarded to any Member of such House: 3. Printed votes or proceedings of Parliament: 4. Letters or packets to or from public departments or public officers in Her Majesty's service: 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed Votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,	3d.
and so on in proportion. Prepayment optional.	

Letters of Soldiers and Sailors remain unaltered, their privilege being restricted to half an ounce in weight.

Printed Books, Magazines, Reviews, and Pamphlets, (whether British, Colonial, or Foreign, may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d. Exceeding 1 lb. and not exceeding 2 lbs., 1s. Exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed. 1st, Every such packet must be sent without a cover, or in a cover open at the ends or sides. 2d, It must contain a single volume, (whether printed Book, Magazine, Review, or Pamphlet,) the several sheets or parts thereof, when there are more than one, being sewed, or bound together. 3rd, It must not exceed two feet in length. 4th, It must have no writing or marks upon the cover or its contents, except the name and address of the person to whom it may be sent. 5th, The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper Stamps. If any of the above conditions be violated, the Packet will be charged as a Letter.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“GENERAL POST-OFFICE.—On and after the 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or which you have every reason to believe, contains any of the following articles, viz: Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; you will refuse to receive such Letter or Packet.

“In the event of any Letter or Packet being taken in by you, and you do not, until afterwards, discover that it contains any Article as above described, or should any such Letter or Packet be deposited in the Letter Box, you will not forward it on its destination, but you will detain it in your Office, and inform me, by the first Post, of the circumstances, stating the precise Address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before mentioned, not be discovered by the Postmaster at whose Office it may be Posted, but be forwarded on to its destination, the Receiving Postmaster, to whose Town it may be addressed, upon discovering, or having every reason to believe, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

ALL Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. News-venders *only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanor.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

"And be it further enacted, that in all cases in which a question shall arise whether a printed paper is entitled to the privileges of a Newspaper or other publication hereby privileged, so far as respects the transmission thereof by the Post under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

MARKS OR WRITING ON NEWSPAPERS.

Writing or Marks are allowed on a Newspaper passing by Post between any one Part of the United Kingdom, and any other Part, provided that a postage of one penny be paid by means of a Stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address, on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

TO THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions by Her Majesty's Packet-Boats, free of the Duty of Postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies by Private Ships for a Postage of One Penny each, and to Foreign Countries for a Postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 23.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from BRITISH COLONIES or "FOREIGN PARTS," to which they are despatched free, are delivered free of postage. From places abroad, to which they are *not* despatched free, they are charged, on delivery, *Twopence* each; excepting those brought by the Closed Mail through France, which are charged *Threepence* or *fivepence* each. *All Newspapers must be printed in the language of the Country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign parts at one penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven* days after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, if *duly stamped*, and *under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges; *the sanction of the Postmaster General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom, at the reduced rate of One Penny each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom, at the reduced rate of Two Pence each.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through the United Kingdom, are liable to a Postage of Twopence each, to be paid at the time of being posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of Twopence each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin, or not, can be registered, on payment of a fee of sixpence, in addition to the Rates of Postage, Inland, Colonial, or Foreign. On those for delivery in France, the charges besides the Registration fee of One Shilling, will be the English rate to France, in addition to double the French rate. A printed Acknowledgement will be given to any person registering a letter. Registered Letters will be taken at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail by which they are to be despatched. Letters for Registration, must be paid, by affixing a sufficient number of Stamps; but the fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the Port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule. the French Post Office undertaking to provide for their security till they shall have been delivered, if addressed to France, and as long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of Registration have been made with the view of ensuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge in writing their receipt. Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by Post small sums are recommended to make use of

THE MONEY ORDER OFFICE,

Which is open every week-day, fast days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is threepence on sums not exceeding two pounds, and sixpence on sums between two and five pounds. No Order will be given for sums beyond this amount; but if the sum to be transmitted exceeds five pounds, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of Firms the initials only are required.

The towns upon which money orders can be drawn are marked in the lists.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

DEBTS may be recovered in a summary form, before the Justice of Peace Court, to the extent of £5; and, before the Sheriff Courts, to the extent of £8 6s. 8d.

The first step is set forth, in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses, and to use arrestments.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgment will be given against him.

In the Justice of Peace Court, if the defender has not been cited personally, he will receive a second citation; after which, whether given personally or not, he will be held confessed, as above; but in the Sheriff Court only one citation is given.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a re-hearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a re-hearing, on consigning 2s. 6d., if the case be before the Justices; and the expence decerned for, with 6s. to meet further expences, if the case be before the Sheriff.

The case will be adjourned, upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by poinding and sale, at the end of ten days.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestments used in cases before the Sheriff, must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthepning whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary, or, if there be no Circuit Court, by the

High Court of Justiciary, at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person shall be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

FARES AND REGULATIONS FOR CARTERS PLYING FOR HIRE
WITHIN THE CITY OF GLASGOW.

At Glasgow, the 8th day of June, 1808 years.—WHICH day the Magistrates and Council of the City of Glasgow, being in Council assembled, there was produced a Table of Fares payable to, and Regulations for the government of, the Carters, plying for hire within the City, which had been drawn up by the Magistrates, after consulting with some of the Merchants of the City, and a Committee of the Carters. On considering which Table of Fares and Regulations, the Magistrates and Council approve thereof, and enact and ordain the same to take place, and to be observed in all time coming, from, and after this date, under the several penalties therein contained. And of which Table the tenor follows:—

1. The City shall be, and is hereby divided into the following Districts, according to which the respective Rates of Carriage after-mentioned shall be exigible.

First District.—To, or from the Broomielaw to Stockwell Street, Glassford Street, and Frederick Street, up to the North side of George Square, including both sides of these Streets, the whole of George Square, and every part of the City to the west of these Streets, and also the upper side of George Street, west of Frederick Street.

Second District.—From the Streets last mentioned, along both sides of George Street, to High Street, along Tringate and Gallowgate Streets, to the Spoutmouth, including both sides of High Street, from George Street southward; also St. Andrew's Square, and all the Streets and Lanes between the said Spoutmouth, westward, to the first line of division.

Third District.—All the Streets, Lanes, and other places, within the City, to the east of the second line of division, and to the north of George Street.

The Carter, in all cases, shall assist in loading and unloading, but must always remain by his Cart; and, when able to do so, he must load and unload the Cart himself.			

All such quantities of Goods as are to be considered as a single Cart-load, and likewise all Rates and Fares, not before especially provided for, in case of any dispute, shall be settled by the Sitting Magistrate.

III. The following Rules and Regulations shall be observed by the Carters, and shall be strictly enforced in all time coming:—

1st. Every Carter shall enter his name and place of residence in a book to be kept for that purpose, in the City Clerks' Chambers, and must find security for the faithful and honest discharge of his duty, under a suitable penalty; and any Carter plying in the streets, and neglecting to find such caution, shall forfeit a sum not exceeding two pounds sterling for each offence.

2nd. Every Carter shall be furnished with a badge, which will be numbered according to the order in which his name is entered. These Badges must be worn constantly by the Carters when at work; and they must immediately get the number which is on the badge painted on some conspicuous part of their carts, under the penalty of ten shillings for each offence.

3rd. Every Carter who shall refuse to work when not engaged, or who shall demand higher Fares than those specified in the foregoing Table, shall be liable to a penalty of ten shillings for each offence. And every Carter who says he is engaged, shall, upon being asked, specify the person by whom, and the hour at which he is engaged; and he shall not refuse to be employed in the interval between the time he is so asked, and the hour of his engagement, under a like penalty of ten shillings for each offence.

4th. Every Carter shall be furnished with, and shall always carry about with him a copy of these Regulations and Fares, which he shall produce and show, when required, to his employers, under a penalty of ten shillings for each offence. And.

Lastly. Every Carter is hereby enjoined, strictly to attend and conform to the Regulations in the Act 12th. Geo. III, cap. 45, and also to the Regulations with regard to the carriage of Timber, in the Act 33rd, Geo. III, cap. 104, under the several penalties therein mentioned.

REGULATIONS AND TABLE OF FARES FOR THE CITY PORTERS.

By the Police Act, Section 103, no person is allowed to ply, or work on the streets of the City or liberties, for hire, as a porter, without first entering his name and place of residence, in a book for the purpose, in the Town Clerks' Chambers, and without giving bond for the faithful and honest discharge of his duty, under such penalty as to the Magistrates shall seem proper, and without having a badge or ticket containing his number.

Persons wishing to be admitted as Porters, must apply to the Magistrates, by petitions, stating their place of nativity, age, residence, and former employment, and produce satisfactory certificates as to character. On being admitted, and before being allowed to ply, each Porter must implement the above enactment; and he shall thereafter strictly conform to, and observe the following Regulations:—

1st. He shall renew his bond at the expiry of three years, and on the decease of the Cautioner, or his removal from the City; which decease or removal he shall, within eight days thereof, intimate, in writing, to the City Clerks and Superintendent of Police; and he shall also, in the same manner, and within the same time, intimate his own removal or change of residence.

2nd. He shall wear his badge or ticket conspicuously on the left breast of his coat, which badge shall be of brass, and have inscribed the words, "City Porter," and the number in the order of his admission; and he shall also have a transcript of said inscription painted legibly on the right side of his barrow or hurley.

3rd. He shall not, when unengaged, refuse employment when offered, whether on his station or not; and, if he alleges previous employment, he shall, when required, specify the nature and time of his engagement.

4th. He shall not demand higher fares than those specified in the subjoined Table; a copy of which Table, with these Regulations, and also a small plan of the City, divided into sections of a quarter of a mile, he shall always have in his possession, and produce to persons employing him, when required.

5th. When stations or districts are allotted to Porters, which shall be done by the Superintendent of Police, the Porters, except on extraordinary occasions, such as the Term time, when they are generally employed at *sittings*, shall not offer themselves for hire beyond the district assigned them.

6th. Not more than four Porters shall stand at any corner of a street or other station; and, as one station may be more advantageous for employment than another, they shall be so arranged as that each may have an equal opportunity of obtaining it. Thus, if the south corners of Glassford Street shall be deemed the most favourable, the four Porters who have been longest in the service shall take the west corner—the next four in order shall take the east corner—the next four shall take the west corner of Stockwell Street—and the next four the east corner of Stockwell Street; and when a vacancy takes place, by the employment or absence, for a quarter of an hour, of any on the more advantageous stations, in this order—the Porter first on the next station, for the day, shall have the right of moving to it; that is to say, the first of the four at the west corner of Stockwell Street to the west corner of Glassford Street, and the first of the four at the east corner of Stockwell Street to the east corner of Glassford Street; or the first at the east corner of Stockwell Street may move to a vacancy at the west corner of Stockwell Street. The same rule shall be observed at the Cross, the south end of Candleriggs, and the north end of King Street; the south end of Buchanan Street, and the north end of St. Enoch Square; and at the other parts of the City where there are intersecting streets, or where there are two or more stations near each other.

7th. Not more than six Porters shall resort to, or take up a station at, any Coach-Office, inn, or other place at which Stage-Coaches arrive. On the arrival of Coaches, the Porters shall stand in a line on the curb-stones of the pavement; and they shall not leave the curb-stone or interfere with passengers' luggage, till singled out and engaged. They shall not importune, call out, or make any signal, to passengers for employment; and, unless especially selected by passengers, they shall take hire in rotation, each in regular succession.

8th. The object of these arrangements being to ensure good order on the one hand, and a fair opportunity of regular employment on the other, the Porters must strictly attend to their operation. For this purpose, they may establish rules among themselves, provided these are sanctioned by the Superintendent of Police, who may alter or rescind them, and provided they are not inconsistent with the Regulations hereby enacted. In the event of dispute or misunderstanding among them, the same shall be determined by the Superintendent. And, as a corrective of improper conduct, the Superintendent may remove such as do not comport themselves with propriety, to an inferior station, and promote the next in order.

9th. No Porter shall appear on his station intoxicated: if he does, he shall be removed, and the next in order shall take his place. All Porters are prohibited from standing on the pavement or crossings, to the obstruction or annoyance of the lieges; as also from smoking, when upon their stations, or in any manner giving offence. In general they are enjoined to conduct themselves orderly among themselves, and discreetly towards the public; to obey the instructions of the Magistrates; and to assist the Police in cases of emergency, and on all occasions when required by the Superintendent, or the officers acting under his authority.

10th. Porters contravening, or not conforming to these regulations, will subject themselves to a penalty not exceeding forty shillings; which penalty shall be awarded, and the Regulations enforced in a summary manner, by the Sitting Magistrate in the Council Chambers or Police Court, who may also dismiss from said employment, and deprive of their badge, such as shall offend.

ABERDEEN FIRE AND LIFE ASSURANCE COMPANY.

ESTABLISHED 1825.

CAPITAL ONE MILLION.

Governor.

THE RIGHT HONOURABLE LORD FORBES.

HEAD OFFICE—89 Union street, Aberdeen.

OFFICE IN EDINBURGH—65 Princes Street.

OFFICE IN GLASGOW—111 St. Vincent Street.

OFFICE IN LONDON—36 Essex Street, Strand.

THIS Company, formed by a numerous and influential body of Proprietors, is the OLDEST INSTITUTION of the kind in the North of Scotland, and combines the principle of Mutual Assurance, with the Guarantee of a large Subscribed Capital and Sinking Fund.

LIFE INSURANCE

The Non-Participation Department embraces every description of Insurances on approved Lives at the lowest rates of Premium consistent with safety.

The Participation Branch was begun in 1840; and, by the first declaration of Bonus as at 10th February 1847, vested retrospective additions, at the rate of 1½ per cent. per annum, were made to all policies then connected with the Scheme, together with contingent prospective additions to such of these policies as may become claims before next investigation at 10th February 1852, as shown in the following

Specimen Table of Policies for £1000, with Bonus Additions :

Date, on or before 10th Feb.	Sum in Policy with vested Additions at 10th Feb. 1847.			Amount payable, if claim emerge after receipt of Premium in year commencing 11th February,

The amount of these Bonus additions affords abundant proof of the eminent success which has attended this department of the Company's business, when it is kept in view that the Premiums are so much more moderate than those usually charged. Thus at the age of 20 a Premium of L.102, which would be required to insure L.4000 in a Mutual Assurance Office, if paid to this Company would at once cover L.4475, and give right to future Bonuses on this sum.

Forms of Proposals and every information given at the Head Office, or any of the Agencies of the Company in Great Britain and Ireland.

SIXTH SEPTENNIAL REPORT.

The Annual General Meeting of the Proprietors of this Institution, took place at the Head Office, in Regent Street, London, on the 29th February last.

The Rev. J. SHERMAN, who was called to the Chair, traced the progress of the Institution from its first establishment, in the year 1806, when the Shareholders subscribed a Capital of £25,000, up to the present time, when those Parties who had secured Policies in the Office found themselves possessed of a Capital of no less than £1,231,647 14s. 1d. He remarked, that the Shareholders' portion of the Profits being less than one-twentieth part, the Society might also be considered a mutual Society, in which the profits are wholly divided among the Policy-holders, but with this advantage, that although £25,000 only has been subscribed, the Shareholders guaranteed a Capital of £250,000.

After having given a very able and highly satisfactory description of the progress of the Society, he closed his remarks upon that subject, with the following statistical Table of the results which had been arrived at upon each Septennial division, from the foundation of the Office:—

Year.	Number of Policies existing in the Office.	Amount of Capital.	Annual Income.	Amount of Profits ascertained after Providing for all Liabilities
1813	930	£95,986	£20,442	£21,012
1820	1578	270,997	59,850	90,798
1827	2931	588,086	88,835	215,773
1834	3464	890,527	110,154	355,650
1841	3826	1,078,129	121,653	415,600
1848	4654	1,231,647	139,778	440,089

During the period of forty years, said the Chairman, we have paid in claims no less a sum than £1,077,000, of which £313,725, was for bonuses or additions to those sums which by our policies we agreed to pay to our clients. He dwelt with much heartfelt gratification upon the reflection, that the Society had during that time alleviated the distress of many a widow and orphan, and expressed his fervent hope, that the benefits to be derived from so excellent an Institution would henceforth become still more widely known. This he felt especially anxious should be the case, because they were now met to learn the result of a sixth Septennial investigation of their affairs, and the accounts laid before the meeting showed that the advantages which would be obtained by all persons effecting insurances in the office were of no common description. After providing for all liabilities, a surplus profit of £449,689 11s. 5d. will be left, one-half of which amount (subject to a deduction of one-twentieth part only), will be divided among those Policies already existing in the office, and the other half, £224,844 15s. 8d., will be reserved as an additional security to the policy-holders until the next Septennial division in 1855, when, as upon the present occasion, it will be added to the accruing profits, and form the fund out of which the bonus then to be declared will be payable. He drew attention to several instances of the extraordinary additions that would be made to existing policies on the present division: in one case, the amount being increased to more than double the sum originally insured.

CHARLES WARWICK, Esq., expressed his hearty concurrence in the proceedings of the day, and ended a very able speech by calling upon the meeting to join him in a cordial vote of thanks to the Managing Director:

Resolved, "That the most cordial thanks of this Meeting be given to J. A. Beaumont, Esq., the Managing Director, for the very great attention and zeal he has displayed in the management of this Society; and that this meeting have great pleasure in acknowledging the very satisfactory state of its funds to be mainly attributable to his personal and efficient services." This resolution was unanimously agreed to.

The Honourable ARTHUR KINSAIRD, rose to call the attention of the Meeting to the advantage which the Society had that day derived from the presence of the Rev. gentleman in the chair. He knew he need say little in moving a vote of thanks to the Rev. gentleman for his very kind and efficient labours on this occasion; his character being deservedly respected by all who knew him, and the Shareholders of this Society, being, moreover, deeply indebted to him for his persevering exertions in their behalf. The Hon. gentleman concluded by proposing a vote of thanks to the Chairman, which was carried unanimously.

SCOTTISH WIDOWS' FUND LIFE ASSURANCE SOCIETY.

AT the THIRTY-FOURTH ANNUAL GENERAL COURT of the SOCIETY, held on the 7th March, 1848, the HON. LORD COCKBURN in the Chair, the Manager read various statements, showing, *inter alia*,

That the number of Policies passed during the year 1847 was 814, covering Insurances to the extent of £551,553, 10s., being an increase beyond that of the year 1846 to the extent of 197 Policies, and £104,352, 13s. of sums insured.

That the Capital of the Society at 31st December 1847 was £1,924,212, 19s. 4d., having increased during the year to the extent of £118,352, 18s. 7d.

That the Annual Revenue at the same date was £295,786, 4s. 11d., having increased during the year to the extent of £29,421, 11s. 4d.

That the number of deaths in 1847 was 105, the sums insured under the Policies lapsed by death (including Bonus additions,) being £125,784, 18s. 3d.

LORD COCKBURN, after special reference to the results shown in the above statements, thus concluded his address to the court:—"Nevertheless, the fact is, that, even under the adverse influences of such a year, our Policies have greatly increased. 814 new Policies have been passed during the year. (Applause.) All the signs of our prosperity have improved. Among others, there is one circumstance with which I am greatly delighted, and which I state because its benefits are not at first perhaps apparent. It is, that the amount of our Policies is diminishing—I mean the amount of individual Policies. They used at first to average about £1000 each. In the year 1846, they were only £720, last year they are down to £670; and, I sincerely hope, that next year they will be still lower. Because, what is the cause of this? It is not that there is any perceptible diminution in the number of large insurances. There is no ground for that suspicion whatever. It arises from the great increase in the number of the small ones; which, being added to the whole, of course lower the average. So that the gratifying fact is, that economic and prospective prudence is beginning to be more prevalent in the lower ranks of society, and among the very persons who formerly did not think of it at all. (Hear, hear.) The prosperity of these Scottish Institutions, and above all, the triumphant prosperity of this one, is every year becoming more visible throughout the community. The tree has struck its roots into a lower stratum; and we may now see widows and orphans, to whom the removal of a father or of a husband generally implied destitution sitting in peace under the shelter which his prudence had prepared. (Applause.) I am not aware that I have any thing more to detain you with. I took the liberty of calling your attention last year to the duty which we all owe to each other in bringing additional members to the Society. I endeavoured then to urge upon you the propriety of getting your friends to join this Association. I cannot flatter myself that the excess of 197 new Policies last year over those of the preceding year has been owing to that admonition. But I beg on the present occasion to renew my exhortation. You will not only be doing good to others, when you induce them to insure, but also to yourselves; and I am absolutely certain that there is not one single individual in this room, or I may say in this Society, who is not able if he chooses, with very slight exertion, to make the value of joining us known to somebody or another. In conclusion, I have once more to congratulate you upon our success so far as we have gone, and upon the brightness of the prospect that is before us, so far as we can look into it." INSTITUTED 1808.

THE Articles and Tables of this Society have been recently subjected to a thorough revision, and have received the sanction of the Registrar of Friendly Societies for Scotland. The Tables were re-calculated by a competent Actuary; and, to enlarge the Society's sphere of usefulness, they embrace both Deferred and Immediate Annuities, due at the age of 30 years and upwards. Investigations are made every five years, to secure against contingencies, so that the benefits of the Society may be relied on by all who may become Members. The Society being conducted on economical principles, the contributions required are considerably lower than those of other offices or societies. The Directors would, therefore, earnestly solicit the attention of the public to this easy method of making provision for the casualties of poverty and advancing years—a method so simple and so agreeable to the feelings of every person of an honourable and independent spirit.

THIS COMPANY (which has carried on the business of Life Assurance for upwards of twenty years with great success) combines, in the most beneficial way for the Assured, all the advantages of the different systems on which Life Offices have generally been formed.

The Participation Plan of the Company, from the large proportion (*Four-Fifths*) of the profits allocated to the assured, presents the best and surest investment to all those desirous of accumulating beneficially for a family provision; and the equitable principles on which the Division of Profits is made, confers the highest benefits on all first-class Lives.

The Non-Participation Plan, in all cases of Loans or other money transactions where an Assurance is necessary or advisable, enables a party to obtain the security of a Life Policy of the most undoubted description, on terms extremely moderate.

Prospectuses, containing all the various modes by which Insurances may be effected, and every information obtained, at the Head Office, or the various Agencies of the Company.

The SCOTTISH PROVIDENT INSTITUTION is the *only Office in which the benefit of Mutual Assurance can be obtained at a moderate Premium.*

The Premiums are about a fourth lower than in the other Mutual Offices; so that the same Premium which at age 30 is charged by them for an Assurance of £1000, will secure a Policy, in this Office, for £1230.

The Whole Profits are divisible among the Assured, on a new and equitable principle, peculiarly favourable to good lives.

That principle is, *that the Surplus should be reserved for those Members whose Premiums, with accumulated interest, amount to the sums in their Policies, instead of being frittered away among Policies of short duration, on which there is a loss, and not a profit, to the common fund.*

At the First Investigation a Surplus of £30,485 was declared, *after providing for all claims.*

THE DIRECTORS beg to acknowledge the steadily increasing support which this Institution experiences, and to assure the public that, whilst the numerous and wealthy proprietary, enables them to offer most ample security for the fulfilment of the Company's engagements, the confidence and preference manifested toward it shall be met, as heretofore, by strenuous endeavours to facilitate the despatch of business, and by liberality and promptitude in the settlement of claims.

By the FIRST ACT OF PARLIAMENT obtained by the Company, it is expressly conditioned that the liability of the Shareholders under the Policies shall not be restricted by special contract or otherwise.

INSURANCES AGAINST FIRE.

Are undertaken on property of every description in the United Kingdom, the British Colonies, and in Foreign Countries; the rates of Premium may be known on application.

LIFE INSURANCE.

The Directors continue to receive proposals for the sale and purchase of Annuities, Endowments, Reversions and contingent Interests, and for Insurances on Lives. No Entrance or Admission Fees are required, nor is any additional premium charged to Officers in the Army or Navy, unless called into actual service. The following are amongst the advantages held out by the Company to persons wishing to effect insurances on the lives of themselves or others:—

Unquestionable Security, the Property of all its Shareholders being the capital of the Company.

Two Scales of Premiums—One lower than those of most other Companies, securing the amount of the Policy without any addition: the other, lower than the Participating Scales generally adopted, and carrying Guaranteed Additions, or entitling to Guaranteed Reductions in the Future Premiums, on a plan entirely new, and peculiar to this Institution.

ALEXANDER DICK,

10 BUCHANAN BUILDINGS,

 105 STOCKWELL STREET, GLASGOW,

RESPECTFULLY returns his unfeigned thanks to those Gentlemen who have favoured him with their patronage since he commenced in the above line, and hopes by prompt attention to their orders, as likewise making every article of the very best materials and superior workmanship, still to merit a continuance of their orders.

A. D. would beg leave to say to those Gentlemen who have not as yet given his Chains a trial, that having been practically engaged in Chain-Making for upwards of twenty-four years, and by a thorough knowledge acquired by study and so long practice he has made during that time many decided improvements on his Chains, which have secured for them a fame, unequalled throughout the three kingdoms. He for these reasons requests a trial, and submits the following Abridged List of Prices for their inspection.

A. D. warrants both accurate and made of the very best materials, only those Chains having Alexander Dick, Chain-Maker, Glasgow, on the middle teller, or counter.

Foot-Link Surveying Chains.

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior made strong wire handles, with brass tops and copper swivels, 10s. 6d. each, and with a set of No. 5 link counters, 1s. extra.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, 300 oval rings, and both made of No. 7 wire, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

WILLIAM DOUGLAS.

61 Nelson Street.

ANDERSONIAN UNIVERSITY, GLASGOW, 7th April, 1847.

I have made a careful examination and trial of a sample of Ink, labelled "Superior Office Ink," manufactured by William Douglas, Nelson Street, Glasgow. I have no hesitation in recommending it, and in certifying that it is of very excellent quality. It is made from the best materials, and with scrupulous care; it flows readily from the pen, and dries of a rich black colour. It is perfectly free from acid and other injurious matters, and may be kept for a long time without becoming mouldy.

FREDERICK PENNY,

Prof. of Chemistry.

COMFORT FOR THE FEET, AND ONLY CURE FOR CORNS.

EBENEZER WEIR.

BOOT TREE AND LAST MAKER,
12 STIRLING SQUARE, GLASGOW.

(Head of Nelson Street.)

E WEIR, encouraged by the very flattering support he has received for the last seven years in the the making of LASTS, on scientific principles, for Ladies and Gentlemen, to suit the various *peculiarities* of their feet, and from the many testimonials he has received from his Customers of the comfort, combined with neatness, they have enjoyed ever since having their boots and shoes made from their own Lasts, begs respectfully to announce that he will still continue to make it a prominent part of his business.

It is well known that Corns are invariably occasioned by unequal pressure, arising from Boots and Shoes not being made to suit the peculiarities of the feet, and that, however cleverly extracted by Corn Doctors, the cause that produced them once will produce them again. E. Weir's mode of making Lasts, however, completely supercedes this difficulty, as he makes proper allowance on the Lasts for the part affected, so that there can be no pressure, and, of course, no pain; and by this means, in a very short time, the Corn imperceptibly disappears, and is replaced by soft flesh, like any other part of the foot. If in any instance Boots or Shoes made from his Lasts do not fit, or fail to give satisfaction, in every particular, E. W. binds himself to forfeit the price of the article, and make other Lasts without any additional charge. The one pair of Lasts makes Boots or Shoes; and, when properly fitted, will serve the parties for many years. On each pair is indented a Brass Plate, whereon the name of the individual is engraved.

ALWAYS ON HAND,
SHAPE BOOT-TREES, SHOE-TREES, LASTS,
Of all Sizes and of every Description.

P.S.—Having a very large Stock of well-seasoned material for Lasts, Boot-Trees, and every article in the above line, he will warrant the following articles to be of the best description, and in the newest fashion:—

PORTABLE BOOT-TREES.
PATENT BRASS-JOINTED BOOT-TREES,

IMPROVED BOOT AND SHOE STRETCHERS,

GLASGOW ICE STORE,

SPRING WATER TABLE ICE, from Spring Water Ponds prepared for the purpose.

ROUGH ICE. | WATER COOLERS. | TABLE ICE PAILS.

W. M'PHUN has much pleasure in laying before the Nobility, Gentry, and the Public, the following Testimonials from the Press regarding the superior quality of his Spring Water Ice:

SPRING WATER ICE.

This Ice, now in such general use in Glasgow and the surrounding country, is even purer in appearance than the celebrated Wenham Lake Ice, and is in all respects equally suitable for the purposes to which the transatlantic production is applied both in America and in this country.—*Glasgow Argus.*

We were shown various blocks of the Spring Water Ice, prepared for table use by Mr. M'Phun, which certainly, for beauty and purity, could not be exceeded. It is, we understand, prepared in Ponds formed for the purpose, and filled to the requisite depth with the finest Spring Water. When frozen to a sufficient thickness, the Ice is cut into logs, then into square blocks, two or three of which, when frozen together, forms masses of from a hundred to a hundred and sixty pounds weight, and can thus be as easily transmitted to all quarters of the country as the American Ice, which it rivals in other respects.—*Glasgow Herald.*
